

VIVEK VAIBHAV

☎ +91-7004854886 ✉ vivekvaibhav1bihh@gmail.com 🔗 linkedin.com/in/vivek-vaibhav 🐙 github.com/vaibhav01coder

TECHNICAL SKILLS

Languages: C++, C#, Java, JavaScript, Python, C, HTML, CSS
Frameworks: React.js, Node.js, Express.js, JSP, .NET
Databases: SQL, MongoDB, MySQL, Azure SQL (familiarity)
Cloud & DevOps: Microsoft Azure, AWS, CI/CD Pipelines, Git, DevOps Workflows
Testing & Automation: Selenium, TestNG, JUnit, REST Assured, API Testing
Engineering Practices: Microservices, RESTful APIs, Telemetry, Observability, Test Automation
AI & Tools: DIAL AI, AI Agents, GitHub Copilot, Claude AI, Git, VS Code, NetBeans, WebLogic Server
Competitive Programming: LeetCode (1880+), CodeChef (3-star, 1650), Codeforces (1300+)

EXPERIENCE

Automation Test Engineer Intern

November 2025 – Present

EPAM Systems

Hyderabad, India

- Developed automated test suites using Selenium WebDriver and TestNG, achieving 85% test coverage and improving service reliability
- Integrated automated tests into CI/CD pipelines, enabling continuous testing and faster, reliable deployments through DevOps workflows
- Implemented API testing with REST Assured, reducing manual testing effort by 60% and enhancing operational excellence
- Leveraged telemetry-driven development and observability practices to identify critical defects and enable incident prevention
- Collaborated with cross-functional teams to deliver resilient, customer-centric solutions and improve product quality

Software Development Intern

July 2025 – November 2025

Servosys Solutions

Mumbai, India

- Contributed to mission-critical banking products serving 10,000+ users, ensuring 99.9% server uptime and high availability
- Optimized loan sanctioning modules by refactoring JSP code, improving performance and efficiency by 25%
- Collaborated with cross-functional teams to design, build, and operate scalable features and resolve production issues

Backend Developer

January 2025 – June 2025

Catination

Remote

- Engineered scalable RESTful APIs and microservices using Node.js and Express.js, handling 1000+ concurrent requests
- Optimized database schemas in MongoDB, reducing query response time by 25% and improving performance
- Implemented automated workflows processing 500+ leads daily, reducing manual effort by 50% through automation

PROJECTS

Algo-Fusion | React.js, Node.js, Express.js, MongoDB, REST APIs, CI/CD

Jan 2025

- Full-stack scalable app integrating CodeForces API and LeetCode scraping for coding profile visualization
- Tracks submissions, contests, and statistics with real-time data serving 500+ active users with high reliability
- Built responsive UI with React.js and robust backend microservices with authentication and caching
- Deployed using CI/CD workflows with telemetry-driven monitoring for service health and performance

AI-Powered Sprint Review Feedback Intelligence System | DIAL AI, React.js, Node.js, Express.js, MongoDB

June 2024

- Developed an AI-powered web app leveraging DIAL AI to analyze sprint review transcripts and intelligently map feedback to user stories and action items
- Built an AI classification engine categorizing feedback as Feature/Bug/Task while detecting and highlighting unmapped feedback for review
- Engineered an AI agent to store and retrieve reports in human-readable format, generating action-item-wise suggestions and automated Minutes of Meeting (MOM)
- Implemented dynamic action item management, category-based filtering, and acceptance-criteria-driven feedback linking

EDUCATION

Chandigarh University

August 2021 – July 2025

Bachelor of Technology in Computer Science Engineering, CGPA: 8.47/10

Punjab, India

- Relevant Coursework: Data Structures & Algorithms, DBMS, Software Engineering, Operating Systems
- Ranked Top 15 among 50+ teams in HackHound 2.0 National Level Hackathon (April 2023)

ACHIEVEMENTS

Certifications: IBM Full Stack Developer, Google UX Design, Anthropic Claude AI, GitHub Copilot, NPTEL: C++, Discrete Math

Competitive Programming: CodeChef 3-star (1650 rating), Codeforces 1300+, LeetCode 1200+ problems

Recognition: HackerRank 5-star in C++ and Java, Top 15 in National Hackathon
